Globaljet Corporation, Arizona's No. 1 Aircraft Charter Provider for six years in a row, has a long history and proud tradition of serving its customers with the highest degree of professionalism and personal service in the industry. With a network of more than 1,400 aircraft available for charter, Globaljet can have a plane available seven days a week, 365 days a year anywhere in the world. "Globaljets crew, staff and management team are proud once again to be chosen by the readership of *Arizona Business Magazine* as the No. 1 Aircraft Charter provider in Arizona. This ranking is a true reflection of the service that we provide to each and every customer," says Thomas Linn, president and CEO of Globaljet Corporation. "Our network of aircraft based throughout the world allows us to match up our customers request with the most cost-effective aircraft, regardless of where they may be." In 2004 Globaljet was awarded recommendations by the aircraft charter industries two largest safety audit companies, Wyvern, Ltd. and ARG/US, a status that is attained by less than 1 percent of the aircraft charger operators in the country. "The safety recommendation that we've been awarded has reassured our customers that they are flying on the safest aircraft with crews that are trained at higher standards than our competitors," says Thomas Linn.
